April 14, 2008

Dear Fellow Colleagues:

I am very pleased to inform you that we are now ready to present our Out of Town Seminars.

We have formed a partnership with Vident Canada and we are going to be travelling to **six** different locations across Ontario.

Our topic will be **Accurate Shade Taking**. This topic is important, not only for all of the esthetic reasons, but also for the continuing education of our new extended scope of practice. I strongly suggest that you register for this very worthwhile seminar.

Our speaker will be Dr. Mark Murphy. Dr. Murphy is a featured presenter for the National Dental Network and the National Lab Network. He practices in Rochester, Michigan.

The topics for discussion will be:

The historical development of proper shade determination and how the paradigm of shade-taking has been embedded into our behaviour over the past 50 years.

Evidence based protocol for shade accuracy,

Hands-on workshop for putting the new techniques into use, including:

- Surface texture and colour
- Translucency
- Lighting
- Digital photographic communication
- Shade assurance

Each paid registration will receive a **free VITA 3D Tooth Guide at a value of \$100.00.**

Yours truly

A handwritten signature in black ink, appearing to read 'Jerry Klein', with a long horizontal flourish extending to the right.

Jerry Klein, RDT
Education

**Registration
