What is CanSkate?

In a word...it's FUN!! It is Canada's only national learn-to-skate program and was developed by experts in the field to teach the fundamentals of skating in a progressive and sequential manner. It was designed to give skaters the basic skating skills required for hockey, figure and recreational skating.

In this program, skaters from the age of 3 ½ years and up, will be evaluated on a day-to-day basis, with no formal testing. The 45-minute program combines warm-up exercises, a 15-minute group lesson with a professional coach, a 15-minute group lesson with a trained program assistant and a series of cool-down exercises.

After finishing the program, skaters will possess the skating skills necessary to continue in their sport of choice. CanSkate is the feeder program for all other Skate Canada programs.

Note: CSA approved hockey helmets are mandatory for all skaters in levels 1-4, inclusive.

What is CanSkate Plus?*

The CanSkate Plus program is geared towards skaters who have completed Stage 4 or higher in the CanSkate program and are interested in continuing on to Figure Skating. This program is longer in length than the regular CanSkate program, provides more opportunity for independent practice and introduces skaters to more challenging elements which will help them prepare for the more advanced StarSkate program. *CanSkate Plus is intended to be taken in conjunction with your regular CanSkate program and is not available as a stand-alone program option.
