

# Clinical Procedures for Better Temporaries and Dentist-Lab Communications

**HANDS-ON  
COURSE**

Thursday,  
December 6, 2007

with

**Gregg  
Tousignant** CDT

**3 CE  
CREDITS**

## ABOUT THE PROGRAM:

Have you ever fabricated provisional restorations with heavy or open occlusal contacts?  
Have you ever found it a challenge to maintain tight interproximal contacts?  
How much do you charge to replace temporary restorations that crack or fail?

There are a number of techniques for the fabrication of crown and bridge temporaries, many of which are unpredictable and consume valuable chair time.

This program will present systems for the fabrication of crown, bridge and veneer temporary restorations that lead to increased productivity, and time saving procedures that provide predictable clinical results.

Also reviewed: And you thought it was the lab! How simple observations of your PVS impressions can indicate whether or not you will have to adjust the occlusion or interproximal contacts of your fixed restorations.

## WHAT YOU WILL LEARN:

- Discuss the importance of proper lighting conditions when assessing shade for your fixed restorations
- What factors contribute to an inaccurate impression, how to prevent them
- Bite Registrations, how they can be problematic for both lab and clinicians
- How to evaluate the accuracy and quality of your impressions
- Predictable technique for fabrication of full coverage posterior temporaries
- Effortless and esthetic anterior veneer temporary
- Discuss the challenges with current provisional techniques
- Discuss tooth reduction and how to insure you are giving the lab what they need to fabricate your prescribed restoration

## HANDS ON:

- Fabricate a direct posterior full coverage temporary
- Fabricate six esthetic anterior temporary veneers
- Fabricate a veneer reduction guide
- Use a facial plane relator to record mid-line and cant

## WHO SHOULD ATTEND:

Dentists and / or auxiliary staff responsible for the fabrication of provisional restorations

## AGENDA:

Thursday, December 6, 2007

6:00pm – 6:30 Registration, light snacks and refreshments  
6:30 – 7:30 Lecture  
7:30 – 10:00pm Hands On

## LOCATION:

Premiere Ballroom & Convention Centre  
9019 Leslie Street  
Richmond Hill, ON

## TUITION:

**\$69.95** +GST

PLEASE NOTE: This course has limited space available

**Academy  
of General Dentistry**

**PACE**  
Program Approval for  
Continuing Education  
FAGD/MAGD Approved

Dentists are eligible  
for 3 CE credits upon  
completion of this  
lecture/hands-on.

Academy of General Dentistry  
Approved PACE Program  
Provider  
FAGD/MAGD Credit  
10/23/1993 to 12/31/2008

**ADAC·E·R·P®**  
CONTINUING EDUCATION RECOGNITION PROGRAM

The participants will be able to assess their learning by means of a self-assessment questionnaire included in their registration package, which will have the correct responses posted on-line at [www.clinicalresearchdental.com](http://www.clinicalresearchdental.com) or call Irene at 1-800-265-3444, ext #223 and request the responses to be faxed.

To register, call David Dewsbury at  
**1-800-263-3099**
